Friendly Valley Voice

By: Dave Swartz

Hello Everyone! This week I am covering for Sharon Devol while she enjoys a well-deserved vacation. I thought I would share some things to keep in mind when you're looking into having work done on your unit.

Handyman Limitations & Restrictions

On a basic level, an unlicensed handyman in CA can perform a wide range of services as long as the total cost of the project is less than \$500, including labor and materials. Handymen can perform superficial or cosmetic touch ups and repairs but anything that *in any way* changes the original structure requires a license and a building permit. Some examples of jobs that a Handyman can perform are: cleaning, landscape, painting, pest control, general maintenance, and cabinet refacing.

Jobs that Require Licensing and a Building Permit

Jobs that are more invasive, i.e., those that require piping changes or tearing down walls, require licensing and a building permit. Some examples of these are: changing water or drain lines, replacing a Water Heater, Electrical circuit box or routing wires, Heating or Air Conditioning, remodeling a Kitchen, Bathroom etc., Gas lines, and Asbestos/hazardous waste remediation.

Reminder:

No job should be started without: 1) notifying your Board of Directors to get permission to have the work done, 2) Following the 6-step procedure included in your Construction Packet, and 3) calling Building and Safety to find out the codes required. If not, you could be financially liable if damages occur.

Parking Rules

In its February 7th meeting, the Community Council voted to add to the Parking Rules (**Friendly Valley Rules & Regulations**): Vehicles parked in driveways must have all four wheels on the driveway with the body of the vehicle extending over a sidewalk or curb line to a distance of not more than 10 inches.

Did You Know?

In 1945, Friendly Valley Country Club was a cow pasture. The view down Friendly Valley Parkway was a barbed-wire gate into a cattle corral, behind which were large oak trees and a muddy cow-tracked dribble of water known as Homby Creek. The creek was fed by three springs seeping from the area of Fairway Circle.

Would you like to know more of the History of Friendly Valley? You can find it on our website at: <https://www.friendlyvalleycountryclubwebsite.com/history.html>

If you would like to add to our History, please contact me.
